Folders Available on New State Auto Law

California's new Financial Responsibility Law which becomes operative July 1 calls for automatic suspension of drivers' licenses for violation of its provisions. A. H. Henderson, Director of Motor Vehicles, said today.

"My advice to California drivers," Henderson said, "is to acquaint themselves with the provisions of the Financial Responsibility Act and protect their driver's privilege at all costs."

"They can familiarize themselves with the law through a state folder now available at most service stations, police departments, branches of the Department of Motor Vehicles, offices of the California Highway Patrol and insurance agents and brokers."

Closing July Date For Dump Fires Staved Off In Local Area Cities

WATER POLLUTION DANGER POSSIBLE IN CUT AND FILL METHOD; URGE FURTHER STUDY

Cities in this area Tuesday managed to stave off a definite July 1 closing order from the Board of Supervisors on their burning dumps, in an effort to stop the smog menace. Sierra Madre, Monrovia, El Monte, San Marino and Glendale were represented

at the meeting and their spokesmen contended there might be a water pollution danger in the cut-and-fill method of disposal proposed as a substitute for open burning.

The cities' spokesmen also said that the element of high cost enters into the problem, as it is costly to haul combustible rubbish long distances. A committee was named by the Supervisors to look into the matter.

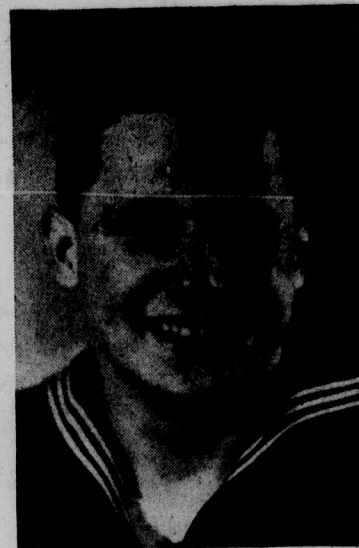

Attention to the pollution danger was called, the statement being that the water level in many sections is from 50 to 60 feet and it is proposed to bury rubbish in a 35-foot trench.

Supervisor Roger Jessup contended that unless a way is found for the cities to comply on approved sites, with cut-and-fill, incinerators should be provided for them.

In the meantime, Street Superintendent Jos. Swanson says that burning on the city dump is proceeding as usual.

Measles Peak Passed In Sierra Madre

Many local children of grammar school age have suffered lately from measles and chicken pox, during one of the severest measles epidemics in five years, according to Mrs. Hortense Wells, Sierra Madre Grammar School nurse.

The peak, Mrs. Wells said, was reached June 1, when 150 pupils were absent. Mumps ran their course between November and February, although Sierra Madre was relatively free of contagion before Easter vacation.

Dr. Mary B. Dale, Los Angeles County Epidemiologist, stated that measles have increased astoundingly in 1948, over 1947; this being the epidemic year in a cycle pattern of every other year. In the past year chicken pox increased 6 per cent and mumps showed a large increase.

"Measles," Dr. Dale said, "are as communicable as small pox was before a successful vaccine was developed. There has been not one case of small pox since 1940 in Los Angeles County."

A recently developed measles convalescent serum is Globulin, which must be administered within a week after being exposed. This serum is a by-product of whole blood protein fraction containing immune bodies.

AGED DRIVER FOUND GUILTY BY JURY HERE

David L. Humphreys, 80-year-old driver of a car that seriously injured Mrs. Ida Mattice, 38 Auburn Ave., yesterday was found guilty by a City Court jury of "willfully and unlawfully failing to yield the right of way to a pedestrian" and of being the "approximate cause" of her injuries.

The case was the first to be tried by Judge John C. Mead, successor to Judge Noren Eaton. Mr. Humphreys, a resident of Santa Rosa, is visiting at the home of his son, Harry C. Humphreys, 430 E. Montecito. Judge Mead will pronounce sentence Monday morning at 9 o'clock.

Mrs. Mattice who is the wife of a city employee, was struck while crossing Sierra Madre Blvd. near the Safeway store on January 30. Testifying from a wheel-chair, she said she had spent 10 weeks in the hospital with injured knees and a broken pelvis.

Court was recessed for about ten minutes while judge, jury, and spectators trooped across the street to view the accident scene. Mr. Humphreys later testified he was driving slowly but saw no one in the pedestrian cross-walk. He said he felt the car hit something, milk splattered on the windshield, and "I knew I had hit something I shouldn't have." The milk was in a package of Turn to page four—

Health Department Aims to Keep Lakes And Streams Safe

Placards warning that pollution of mountain streams and lakes is against the law are being posted this week by the U. S. Forest Service in conjunction with the mountain and rural sanitation section of the Los Angeles county health department according to advice from Dr. Roy O. Gilbert, County health officer.

Many homes and resorts use water from these streams, hence it is imperative that they be kept free from pollution, the health officer said. Only in designated areas is swimming, wading or bathing in streams and lakes permitted, and persons found violating County, State or U. S. Forestry regulations will be prosecuted.

The same health and sanitation regulations apply to dumping rubbish in canyons and along the highways, Doctor Gilbert pointed out.

A MILESTONE FOR SIERRA MADRE

(Ed. Note: "Orchids to Ourville!" The following, clipped from the annals of the Star News, shows that their rambling reporter showed up for work sans rose-colored cheeks. Files or Flies—that is the enigma. The NEWS proof-reader intentionally passed this one.)

Orchids to Sierra Madre for the very colorful Pioneer Days Celebration held last week-end, to the Lions Club which sponsored it and to the Sierra Madre News for its very appropriate special edition dedicated to propagandizing (and I quote) "The Cream of Climates, the Finest Location, the Purest Water, The Finest Fruits, the Grandest Views, AND the Oldest Flies."

The News carried some wonderful old pictures in its special edition. One that I liked especially well was one depicting Sierra Madre's "first pin-up girl," a Theda Bara type, who had the lead in one of the first amateur theatrical efforts ever done in the foothill city. One of the plays, given in April, 1898, the article states, was "The Private Secretary," which was done so well by a cast headed by Percy South that it was repeated in the big city—meaning Pasadena—and at the Hotel Green, James Hawks, it was said, made a wonderful hit with his part as a simple-minded boy who never spoke a word during the whole performance.

The Bare Facts

Two-year-old Gary Olson, "captured" by Chicago police on a charge of "escaping his baby-sitter," gives Desk Sgt. John Rochfort the bare facts of the case. Officers Leo Matrose and Tom Burke stand by. Gary was "sentenced" to two glasses of milk, a bag of potato chips and a trip home to the baby-sitter.

School Board Reveals New Teacher Plan

Teachers, budgets and salaries came to the front at the School Board's evening session, Tuesday.

Because the seventh and eighth grades have been transferred to Pasadena, it was necessary to accept the resignations of four teachers.

A tentative budget for the school year, 1948-49 was submitted and forwarded to the county for auditing and correction. A public hearing is promised in early August.

Summer school boasts an excess of 40 registered students and another teacher is necessary to accommodate the overflow.

According to Supt. Charles Skutt, the proposed salary schedules for non-teaching personnel, passed by the board, are in line with similar wage scales in the San Gabriel Valley area.

Teachers taking positions at other schools are Mrs. Franklin Bradshaw, librarian and special reading teacher; Mrs. Dorothy Hier, home economics and seventh grade social studies; Mark Havenhill, part time shop teacher and Paul Rustanuis, seventh grade science and math instructor and boy's athletic coach.

Mrs. Bradshaw will go to Monrovia elementary school; Mrs. Hier to South Pasadena Junior High; Mr. Havenhill will do part time maintenance work at the local school and Mr. Rustanuis is considering a high school science position.

Engagement of Sierra Madre Couple Announced At Afternoon Garden Party as Surprise to Friends

MISS ELIZABETH ANN BROWN

The engagement announcement of Elizabeth Ann Brown and Robert Martinet was made Sunday in an unique manner. Forty guests had been invited for the annual picnic and steak fry at the Martinet home, 217 South Lima Ave. The afternoon was spent in sports and dancing, followed by an outdoor supper and, when it was dark, colored motion pictures taken during the year by Mr. Martinet. Cleverly included at the end of the films was a romantic sequence which revealed the betrothal.

Mr. and Mrs. Stanley Brown of 222 East Highland Ave. later

made a formal announcement of their daughter's betrothal. The Browns came to Sierra Madre a few years since from Denver, Colorado. Mr. Brown entering the real estate firm of Brown & Russell.

Both Miss Brown and her fiancé are interested in flying and hold Civil Air Patrol licenses. Miss Brown will be graduated this week from Pasadena City College where she is a journalism major and will enter University of California in the fall. Her fiancé, son of Mr. and Mrs. Robert Martinet, will be graduated from P.C.C. in the autumn. He formerly attended U.S.C.

Betty Ann, as she is intimately known, has been prominent in student affairs and at P.C.C. has held many responsible offices, being secretary of the senior class, Junior Associated Women's representative, women's sports editor of Campus; serving on senior class council, on the public relations committee, and as a member of Alpha Gamma Sigma, scholastic fraternity; Beta Phi Gamma, national journalism honorary; Ostarrians, Red Cross and Sailing Club.

Mr. Martinet was a second lieutenant in the Civil Air Patrol, and holds pilot and observer ratings with the 1000-hour ribbon. At P.C.C. he has been on the swimming varsity and is president of the photographic club and on the year book staff.

Paisano went on the air recently—on one of those little big networks beamed through the San Gabriel Valley from Pasadena and carried by stations in Long Beach and San Bernardino.

Purely through the aid of unseen powers and good friend Lorne Pratt, who sat on the other side of the interviewing table, was I able to croak a few reminiscences and pertinent facts on Southern California.

Mike fright is a sort of creeping paralysis of mental functions that reaches greatest intensity when the m.c. says, "and now may I introduce—"

All I could do was stare with glazed eyes at the little metal disk before me. I cleared my throat and the monitor jumped out of his chair. I couldn't find my notes and wouldn't have been able to read them anyway. I was frozen and little white stars were exploding inside my cranium.

Gently Lorne led me through a series of simple questions requiring only "no" and "yes" for answer—until circulation was restored and a degree of equanimity. At length I became voluble and was chattering like a nervous magpie when the red light went on and the broadcast was terminated.

What had I said? I couldn't remember. What had I done? I hated to think. When I returned home my family greeted me boisterously.

"Well, we certainly found out some things about you! You said you were a native of California and we always thought you arrived here at the age of five sans stork!"

"Listen," I said wearily, trying to smooth out my tail feathers, "I'd have told him I was a full-blooded Sioux Indian—if it would have ended that interview!"

But worse things have happened on the air. Ask Lorne Pratt (who, incidentally, goes on national hook-up in the fall.) Ask him about the State insurance expert he interviewed.

Bolts Must be Tight

That thump in the front of the car when driving over a rough stretch of road often is the product of loose spring bolts, state highway officials claim. It makes for discomfort because the resilience of the spring is destroyed. It is dangerous because it means that one leaf of the spring is taking all the strain. It is, however, most easy to remedy.

Pedestrians are involved in 50 per cent of our traffic deaths.

Aged Driver Guilty

From page one
groceries Mrs. Mattice was carrying.

Main facts of the case were agreed upon by both defense and prosecution. The issue boiled down ultimately to the definition of "wilful" as used in the charge. Defense Attorney Kenneth W. Kearney said "wilful" meant committing an act purposely, with intent, and that the defendant was not charged with any such malice. Deputy District Attorney M. E. Howard, on the other hand, argued that an act is wilful if performed in a conscious state. He said that according to Mr. Kearney's definition, a man might shoot into the courtroom with his eyes closed and not be guilty of wilful murder if he killed somebody. The jury of eight men and four women, under Jury Foreman Ralph M. Welch, apparently supported Mr. Howard's brand of semantics.

Witnesses called by the prosecution included Miss Catherine Peterson, Mrs. Elsa Seifert, and Police Officer James C. Heasley.

SORORITY SHOWER FOR WESTWOOD GUEST

Miss Carol Rondeau, 59 West Carter, was hostess to 22 Theta Phi Alpha sorority sisters, last week, when she honored Dolie Passault of Westwood with a personal shower. Miss Rondeau will act as bridesmaid at Miss Passault's wedding, June 19.

Miss McClelland Honored by Three Social Events

Three miscellaneous bridal showers have been given recently for Mary Louise McClelland, daughter of Mr. and Mrs. Lewis C. McClelland, 503 Manzanita.

Mrs. Kathryn Schaefer of Pasadena and Mrs. Marjorie Ernst of this city were hostesses to 14 guests at Hotel Huntington, June 5.

Many of the bride-to-be's grammar school friends attended a shower, June 8, at the home of Mrs. Floretta Lauber of Pasadena.

Tuesday evening guests met at the Hinkley home, 436 Ramona, and were greeted by hostesses: Mrs. Warren O. Preston and Mrs. B. L. Hinkley.

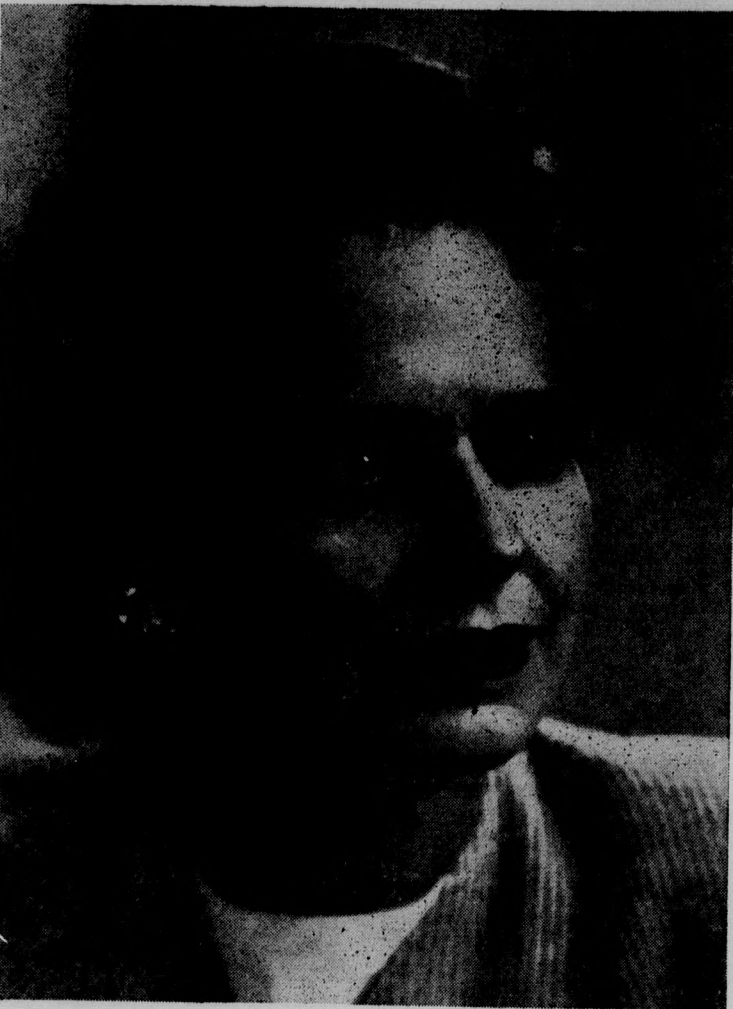

The Congregational Church will be the scene of ceremonies, June 26, when Miss McClelland becomes the bride of James Randall Link, son of Mrs. Ione Link of Pasadena.

ALA ACTIVITIES

The election of officers will take place at the coming meeting of the Unit to be held at the home of the president, Mrs. Rose Galkin of East Mira Monte, June 24th. The alternates for the Department Convention at San Francisco in September will be named at this time. Mrs. Edna Hearst, 18th district past president is to be guest of honor.

The board members are Mesdames Carolyn Wilson, Philip Woodworth, Dan Strite, Robert Crowell, Sam Haskins, Jr., W. D. MacAuley, Frank Spencer, A. L. Harris, W. C. Roberts, C. A. FIRE FLAMES

We are constantly reminded (by the receiving of Fire Facts and Trends), of the enormous amount of fire loss throughout the nation. Despite everything, the fire loss during December, January and February has reached the alarming figure of \$2,254,355 a day. Imagine, EACH day. This amount of loss has been accredited to our carelessness. (Perhaps, our own folks should not be included in this, but it has always been customary to speak of OUR COUNTRY as US or WE.) I feel certain that if other sections of the United States would follow the example set by the folks of Sierra Madre, this terrific fire loss would diminish. Fire fighters organizations all over our country are doing their best to encourage the folks of the nation to work hard to prevent fires. What we need is more organizations to follow suit. Of course, fighting fires is fire-fighter's business and we feel that to fight fire, we must PREVENT fire by continuously hammering to remind folks of the danger, and therefore to form fire conscious organizations is just another way of preventing fires. We, the fire fighters of Sierra Madre, feel very proud of the manner in which our neighbors and people work with us in keeping down the fire loss of our fair and enjoyable City. Our success means that we cannot let down with our efforts. Our success effects our insurance rates and this means a saving in dollars and cents as well as sense. When we sit down and give this matter thought, we find that to prevent fire is a simple matter. It only means carefulness about the premises. We are not careful when we permit accumulations of rags, papers, boxes, waste materials, and such. We are not careful when we do anything that will permit fiery embers to float through the air. Nor are we careful when we attempt to clean clothing, or any other article with gasoline inside the house or other enclosure. We cannot permit children to reach the match box or let them get near an open flame when they are dressed in inflammable clothing. There are many DONT'S that we must observe and which have been told again and again and which will again be told in this column. If we are to hold onto the wonderful low fire loss record that we now possess—then we MUST observe the fire prevention suggestions. As I write this, I realize that the repetition is prominent. It would be most difficult to form a column such as this without repeating. There are only a certain number of basic rules to prevent fires from starting and if we are constantly reminded of them, we are receiving value. The Fire Department of Sierra Madre is composed of a group of local men, some of whom have served in this capacity for many years and some of whom are young men of excellent character and serving the City in useful occupations, and businesses. Organized many years ago, the personnel has changed but little, considering the number of men that is required to keep the organization efficient. Those who left the department have either moved from the region or they have met the required age that calls for retirement (without pay), or they have died.

In order that the men may keep acquainted with the equipment and fire fighting methods, drills are held regularly and always with good attendance. Because of the pleasant attitude taken by the townsfolk, the work is a real pleasure. Old timers of the city realize the importance of keeping the fire fighters interested and newcomers are soon to learn. Old timers also know the value of fire prevention and this also is soon brought to the attention of the newcomers. Let's make every week in Sierra Madre "CLEAN-UP WEEK" and we won't have to clean up so much when the time comes. If we keep the place clear of trash, we will surely be aiding in keeping the FIRES OUT.

PICNICS

The West Virginia-Panhandle State picnic is announced for June 27th at Sycamore Grove Park, Los Angeles. It will be an all-day reunion.

POSTAGE STAMP WILL HONOR CLARA BARTON

Clara Barton, founder of the American Red Cross, will be honored on a commemorative postage stamp to be issued this year, U. S. Postmaster General Jesse M. Donaldson has announced.

Miss Barton

Design of the stamp and date of its issue have not been specified, but it will be a three-cent stamp, probably issued on a date which had significance in the life or work of this amazing woman who was in her sixtieth year when she founded and became first president of the American Red Cross.

One of 15 commemorative stamps for issue in 1948, this is the second Red Cross stamp issued by the U. S. Postal Department. The first, a two-cent stamp in 1931, commemorated the fiftieth anniversary of the organization's founding and had as its basic design the 1930 Red Cross Roll Call poster, "The Greatest day stamp Mother." First sales on May 21, 1931, were made in Washington, D. C., home of Red Cross national headquarters, and in Dansville, New York, where the first Red Cross chapter was organized.

ANNE JEFFREYS, stage and screen star, will appear at the outdoor Greek Theatre, Los Angeles for two weeks starting July 5 at the singing star of Franz Lehár's world-famous light opera, "The Merry Widow."

FORMER SIERRA MADREAN DIES AT AGE OF 90 YEARS

Mrs. May A. Ballenger, who lived many years at 264 San Gabriel Court, passed away Friday, June 18th, at the age of 90. She was a member of Bethany Church. Funeral services were held in Rosemead and final rites at Forest Lawn.

She is survived by W. O. Ballenger, a grandson, of this city.

AGED RESIDENT PASSES SUDDENLY

Mrs. Bettie Cohn, of North Baldwin, passed away suddenly Saturday morning. She was born 84 years ago in Fort Scott, Kans., and had resided here two and a half years.

She is survived by a niece, Mrs. Birdy Loewenthal of Los Angeles. The remains were sent by Grant Chapel to her former home in Texarkana, Arkansas.

Pacific House, El Dorado County, was the halting place of many a famous wanderer in the early days, according to the National Automobile Club. Here stopped such famous people as Horace Greeley, Mark Twain, and Thomas Starr King.

PIANIST CITED FOR CONTRIBUTION TO THE SCHOOL FROM WHICH SHE IS GRADUATING

BARBARA BOWMAN

Miss Barbara Bowman, among the graduates at Monrovia-Arcadia-Duarte this year, not only received the Gold Seal but was publicly cited by the superintendent in a recent assembly for the contribution which she had made to the school in her four-year attendance. He said Barbara should be accorded the thanks of the school for her musical and scholastic achievement. She is a member of the

Madquins, the senior girls service club, eligible only by scholarship, citizenship and co-operation. She has been accompanist for the Girls League, soloist and has given many piano recitals.

Miss Bowman, daughter of Mr. and Mrs. J. G. Bowman of 131 East Orange Grove, is a pianist of rare ability and has continued her piano study while carrying heavy scholastic work. She will enter Muir College next fall.

Boy Scouts Spend Weekend Camping in Antelope Valley

The Luke Gervais Ranch in Antelope Valley provided a weekend camp for Sierra Madre's Troop 1, Boy Scouts.

Jay Andrews, Leland Ballenger, Tommy Lumsden, Alex Murray, Merle Smith, Jimmy Tice and Richard Ward were the Scouts attending, and they were accompanied by Arthur Tice, Scoutmaster; Lewis McClelland and Dr. Harry Morley, committeemen.

While there the boys passed tests in Scouting and enjoyed swimming in the Gervais large reservoir.

Sunday morning Mr. Tice, assisted by Mr. Gervais, conducted a brief church service at the campsite, after which the party visited the Bruce McGill ranch a short distance away. The boys climbed the Piute Buttes which fringe the Gervais and McGill ranches on the south.

(To newcomers it may be explained that Mr. and Mrs. McGill of Sierra Madre bought alfalfa ranches in the desert a few miles out from Lancaster which are situated due North over Mt. Wilson from here. Both families were much interested in Boy Scouting.)

The Naval Reserve Officer's Training Corps has 52 units in colleges throughout the country.

QUICK MIX DOUGH

No kneading, no rolling, no cutting, no bread board and only one bowl for both mixing and rising of the new method yeast dough.

I like the "one-bowl cake" this method saves time in mixing. Because the procedure is so quick, milk need not be scalded unless you use raw milk. You can mix this yeast dough in a hurry and allow it to rise while you are busy with something else.

Versatility is another advantage, for the one basic dough can be used for several sweet variations. Try it once as sugar puffs, try it again as fruit buns, and as a loaf of fancy bread. Everyone will please your family.

BASIC SWEET DOUGH

1/4 C. sugar
1 tsp. salt
1/4 C. soft shortening
1/4 C. lukewarm milk
1 large egg
1 yeast cake
2 1/2 C. sifted all-purpose flour
1/2 tsp. nutmeg
1/2 tsp. mace

Mix sugar, salt, shortening, milk and egg together. Crumble yeast into mixture. Add flour and seasonings. Beat one minute (at least 100 strokes). Scrape dough from sides of bowl. Cover with a damp cloth, let rise in a warm place (about 85°) until double in bulk. Beat well (20 to 30 strokes). In making the variation desired, use the following directions and all of the basic mixture for each recipe.

SUGAR PUFFS

6 Tbsp. melted margarine
1/2 C. sugar
1 tsp. cinnamon

Drop basic dough by spoonfuls into 12 medium sized greased muffin cups. Let rise until very light (about 30 minutes). Bake 15 minutes in 400° oven. Dip tops and sides immediately in melted margarine, then roll in cinnamon-sugar mixture.

FRUIT BUNS (18 Buns)

1/4 C. chopped candied cherries
1/4 C. chopped citron
1/4 C. raisins
1/4 C. chopped nuts

Mix fruit and nuts and add with flour in basic recipe. After first rising, drop by tablespoons 3 inches apart on greased baking sheet. Brush with milk. Let rise 30 minutes. Bake 15 minutes in 400° oven. If desired, frost with powdered sugar icing while still warm.

TUTTI FRUTTI BREAD

Mix and let rise the first time as for Fruit Buns. Spread in thin layer in greased pan 9x13x2 inches. Sprinkle with two tablespoons sugar. Let rise 45 minutes. Bake 20 minutes in 400° oven.

BREAKFAST RING

Spoon basic dough into greased 9 inch ring mold 3 inches deep. Cover with damp cloth and let rise until very light. Bake 35 minutes in 350° oven. While still warm, frost with thick white icing (1/4 cup confectioners' sugar and 1 tablespoon milk).

TB Facts And Fiction

One of our great leaders in modern medicine once said: "The battle against tuberculosis is not a doctor's affair; it belongs to the entire public."

There is a widespread notion that anyone who looks and feels healthy must be free of tuberculosis. The disease in its early stage has no pronounced outward symptoms. But by means of a chest X-ray, tuberculosis can be detected in its early stages. Therefore, even people who seem healthy should get a chest X-ray at least once a year.

Everyone should know that tuberculosis can be prevented and that it can be cured. Your family doctor and your local tuberculosis association can give you additional facts about the disease which will help protect you against tuberculosis and will enable you to help prevent the spread of this disease which kills 50,000 Americans a year.

Legion Juniors

Need Pitcher and Other Players

Doc Boles, manager for the Legion Juniors of Arcadia, has been looking Sierra Madre way for pitching talent. He says he also can use third basemen and outfielders.

There is a workout this afternoon at the Arcadia County Park and aspirants may report then for tryouts. If unable to report Thursday, a phone call to Manager Boles, Sy. 2-6222, will arrange for a tryout Friday. There is a game with LaVerne Sunday for the Father's Day Cup and an opportunity to play.

VACATION'S COMING!

Here's how to SEE TWICE AS MUCH on your trip East!

Planning a trip East this summer? Then here's how to explore America on your way East and back:

Go East on one of Southern Pacific's Four Scenic Routes—return on another—see an entirely different part of the country each way. In fact, see twice as much!

For example: go East on the Golden State Route, the low-altitude way from Los Angeles to Chicago across the range and grain land of the nation. Then return on the Sunset Route from New Orleans to Los Angeles via the lush bayou lands, the rolling Texas plains, El Paso and Southern Arizona's dude ranch country.

Or—return on the Overland Route straight across mid-continent from Chicago to San Francisco, or on the Shasta Route via Portland through the evergreen Pacific Northwest.

Your choice of accommodations, too. In addition to comfortable chair cars and luxurious Standard Pullmans, there's through economical Tourist Pullman service between Los Angeles and Chicago, Kansas City, Houston, New Orleans, Portland, San Francisco and many other destinations.

More information? Ask your near-by Southern Pacific Agent. He'll be glad to help you plan your trip and take care of tickets and reservations.

S. P. has Tourist Pullmans from Los Angeles!

Go S. P. Tourist Sleeper for comfortable, modern Pullman travel for dollars less. Rail tickets for travel in Tourist Pullman cost less than tickets for use in Standard Pullman Sleepers. And the Tourist Pullman berth charge is less, too. Tourist car passengers have all privileges of dining and lounge car facilities.

ALIAS A GENTLEMAN

Sat. Mat. "B. Bradford No. 8"

Ahaaaaaa-choooo!

That's what comes of poking around in one's past. A lot of dust and an uneasy embarrassment that you (me) could really have been so young and foolish. And so determined. And so RIGHT. And SO wrong.

This being the baccalaureate time of year, my search led me underneath two punctured inner tubes and a pair of riding boots (too small) where reposed the Annual of my graduating year.

Below my earnest portrait is written some fine twaddle end-

ing with: "for I am for whole volumes in folio."

Geez! Little did they know when they wrote, that my volumes would never make folios, but the back files of old newspapers—yellowing there—not bothered much by posterity. But paid for.

Exactly 18 years ago I inscribed profoundly in a journal—

"How funny it all is—this business of living. Some of us work so hard at it—some of us take it so lightly—where is the happy medium?"

First poem (?) ever accepted—and by Rob Wagner's Script: To a Late Appendix I bid adieu with little pain I filled no earthly needs But now you're gone, where will I put My old raspberry seeds?

And stuck in between the pages,

"Dear Madam: The enclosed letter is being sent to you under cover with the explanation that same is somewhat damaged on account of a dog having access to the carrier while making his collection. The contents of the envelope seem to be intact and the incident was much regretted but was unavoidable."

Then come five pages of an undecipherable code: With No. 3 needles cast on 80 stitches. Knit 1, purl 1 for 3 inches.

Then knit 2, purl 2, knit 3, purl 2 ending with purl 2. Come again?

A letter from the editor of Sunset magazine is pressed in triumph. First article ever accepted and paid for. But never printed.

What's this doing here? "I authorize Marjorie Barter to obtain my sugar ration book

for me"—signed by Inez Robb of International News, just before she took off in a bomber for the first press trip to the Desert Training Center.

Her date of birth is also listed. Wonder if I can decipher with her for this small piece of paper? Hey, Inez!

"Just feel this heavy ivory card—look at the gold embossed hammer and sickle. Now look over your shoulder for any Congressional committees and then see what it says In celebration of

The Twenty-fourth Anniversary of the Red Army of the Union of the Soviet Socialist Republics, etc.

What a reception! What caviar! Ow, what vodka! That was in the early days—Maxim Litvinoff was there—and Lord Halifax. The Embassy in Washington was magnificent—practically capitalistic in its splendor.

I arrived armed with only one Russian word—"da"—or yes. At the end of three hours of glowing hospitality I inquired of the third under-secretary and was graciously given the word "nyit." Fortunately it meant no.

You know, keeping things like these stuck around in old envelopes in the bottom of desk drawers is a pernicious habit—leading to such erratic behavior as saving old string and the wrappers off of bread loaves. Why don't I pitch the whole lot into the incinerator?

Well, why don't I?

BARBARA HUGHES and ELEANOR FEDERSPIEL will be two of the riders in the famous "slow horse race," a feature of the Napa County Fair and Horse Show, Calistoga, July 3, 4 and 5. Idea of the race is that the last horse to cross the wire wins. No owner rides her own horse therefore tries to win with opponent's horse so her horse can come in last.

MAPHA CLUB TO HAVE SUMMER SESSIONS

CASTLE CRAGS STATE PARK

Castle Crags State Park, located four miles south of Dunsmuir in Shasta County, is reported to have been the site of the "Battle of the Crags" in 1855. It was during this battle, in which white settlers drove the Indians up into the crags, that the poet Joaquin Miller was wounded by an arrow.

New brides take heart! Cooking is like dancing! First, learn a few basic recipes, just as you learn the basic steps in dancing—the waltz, fox-trot and rumba. When these become familiar and easy, relax and add embellishments of your own—a touch of "you."

Learn to really read and follow a recipe. Measuring cups and spoons are "musts" among your new kitchen ware. Form the good habit of measuring accurately and of following time and temperature suggestions, and you will be sure of top results every time. Soon you won't have to run to a recipe each time you start meal preparation. You will have acquired that individual "flair" that will start "him" dancing too!

SOUTHERN FRIED CHICKEN
(6 servings)
3 to 3½ lb chicken
Salt
Pepper
Flour
1½ C. fat
½ C. sliced mushrooms
1½ Tbsp. flour
1½ C. milk
Cut dressed and cleaned chicken into serving pieces. Season with salt and pepper and roll in flour. Heat fat in frying pan. Add chicken and brown on all sides. Reduce flame; cover pan tightly and cook slowly until tender, from ½ to 1 hour. Remove to hot platter. Add mushrooms to fat in pan and cook until lightly browned. Blend in flour. Add milk and cook, stirring constantly, until thickened. Serve with fried chicken.

BROILED LAMB CHOPS
Place lamb chops in preheated broiler compartment so that top surface is about three inches from the flame. When one side is nicely browned, season with salt and pepper, turn and finish cooking on the other side. Chops cut ¾-inch thick require 10 to 12 minutes; 1½-inch thick require 15 to 20 minutes.

For variety:
1. While sizzling hot, spread chops with mint jelly made tart by the addition of a little vinegar.
2. Mix ¼ C. butter or margarine with ¾ C. finely chopped mint leaves. Add 2 Tbsp. lemon juice. Season with cayenne. Spread over chops just before serving.

VEAL SUPREME (6 servings)
6 veal chops
¼ C. flour
4 Tbsp. margarine
½ tsp. white pepper
1 tsp. salt
1 medium onion, chopped
1 can mushroom soup
1 can fresh milk
Tomatoes and fresh mushrooms (optional)

Shake chops in paper sack with flour. Sauté to golden brown in melted fat. Season with salt, pepper and onion. Pour in soup and milk; cover closely and simmer 35-40 minutes until tender. If desired, brush mushroom caps and tomato halves with margarine and broil. Place tomato, then mushroom on top of each piece of meat. Thicken gravy with remaining flour and spoon around chops.

Think twice—once for yourself, and once for the other fellow.

Rheumatic Fever Program Continues For Young Patients

Continuation of an occupational therapy program for young rheumatic fever patients through the next six months was revealed today by the heart division of the Los Angeles County Tuberculosis and Health Association, which is supervising the demonstration.

Funds for the project will come from the Phi Sigma Sigma sorority, through the local chapters, and the A. M. Roberts Memorial Fund, established in honor of the late Dr. A. M. Roberts, local heart specialist who died last year.

Originally established in January as a six-month demonstration, the program has assisted a total of 39 young patients, with 30 now receiving occupational therapy services. Patients are referred from cardiac and children's clinics, and are given a prescribed course of mental and physical activity recommended by the physician in charge and designed to speed recovery.

FINAL MEETING UNTIL FALL AT PRITCHARD HOME

The Women's Society circles of the Congregational church have been invited to hold the last social meeting until next fall at the home of Miss Martha Pritchard, 161 East Alegria, Tuesday afternoon, 2 to 4. A special program has been planned and the money earned throughout the year will be turned in at this meeting.

YOUR DOLLAR

is still worth 100 cents

when you pay your

Gas Bill!

Almost any purchase shows how your dollar has shrunk!

But with gas, you still get a pre-war dollar's worth for your dollar!

This is because the price of gas didn't skyrocket along with other prices. Gas stayed down and actually costs you less now than in 1933!

The low price of gas has been the result of:

1. Selling more gas to more people! New meters are being installed at the rate of 6,500 a month. We're serving 60% more customers than we did 10 years ago.
2. "Keeping on our toes!" The hard work and know-how of every member of our organization have helped step up our efficiency and brought about more economical operation.

These two factors have helped offset our rising costs. For our materials and labor are at an all time high. Our taxes, payrolls and even the cost of gas at the field have climbed steadily. Extensions to serve customers in new areas cost us 2 1/2 to 3 times as much as before the war. In addition to this, the 1204-mile Texas-California pipeline required \$70,000,000 to build.

The next time you receive a gas service bill, say to yourself, "At least GAS hasn't gone up in price. It IS a real bargain!" This economy—plus speed, flexibility and dependability—is why all Southern California uses gas so widely for cooking, water heating, house heating and refrigeration.

be exact, they had prepared questions and answers and had them before them as they went on the air.

Lorne did the build-up, asked the first question and turned to his expert. The man sat there in an advanced stage of shock, his face white with blank, perspiration pouring off him in rivulets.

Without a moment's hesitation Lorne snatched up the prepared copy—and for ten minutes asked questions in one voice and answered them in another. Finally he thanked himself for having appeared as a guest and signed off.

FCC rulings forbid oaths or expletives of the sterner sort on the air. That they occasionally creep in is a source of much grey hair on a huckster's head.

One morning Lorne was interviewing a stoutly constructed gentleman. They were slouched in canvas chairs and Lorne was batting out the commercial when he heard a great ripping sound.

He looked across the table and the stout gentleman was gone clean out of sight. But not out of hearing. From under the table where he had been deposited by faulty canvas, came a string of round, rich, thoughtful cuss words.

It was on a hot summer's day and the little padded cell from which he broadcasts had just been outfitted with an electric fan. Lorne laid out his pages of copy, awaited the signal and was on. So was the fan. In one great swoosh it scattered his notes all over the floor.

What could a man do? Perfectly simple. He picked up the microphone, got down on his hands and knees and crawled around the room, broadcasting in a reasonably calm voice as he crept up on his papers one by one.

But the flub to be cherished above all others occurred the day that the "on the air" signals got mixed. Lorne sat in one studio with his commercial on a new real estate development. In the next studio sat a minister ready to give his fifteen minute sermon.

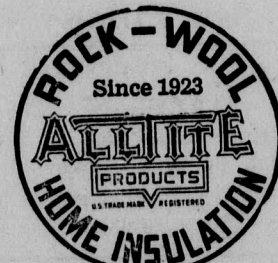

Both got the signal to go on the air. Both did. In the lulls of the serene sermon on building one's home in heaven, Lorne could be heard exhorting people to build their homes on a hillside lot.

"And so, for the best buy in view and location, I suggest that you take a drive to Shady Oaks," he concluded. "Amen!" intoned his neighbor.
